Wetland Restoration Program

Thanks to the ability of wetlands to moderate moisture, humidity, and temperature, DUC's Wetland Restoration Program can help manage risk associated with flooding and drought on your operation.

Take advantage of:

- additional forage and stock water
- well-water recharge
- reduced pooling and water erosion during high runoff weather events
- positive microclimate impacts on surrounding cropland

Financial incentive

Agronomic benefits

Supports wildlife

DETAILS:

- ✓ Receive a one-time payment of \$2000/acre on restored wetland acres with a 10-year lease, OR:
- ✓ Sign a conservation easement on restored wetland acres and receive 100% of Fair Market Value of those acres
- ✓ DUC covers all construction and maintenance costs
