

**R.M. OF ROSEMOUNT #378
POLICY #30
INSTALLING APPROACHES
FOR RATEPAYERS**

1. A request must be made to the municipality before construction begins.
2. The municipality will provide the services of the grader/operator to construct one approach per quarter section, sub-divided yard site or parcel. If an approach already exists on the property, additional approaches will be charged as custom work.
3. If additional clay/material outside of the right-of-way is required to complete the approach project it will be the responsibility of the landowner to locate and haul.
4. The municipality will provide one approach per landowner/per parcel of land along any newly constructed municipal roadway.
5. Approach width shall be constructed to a minimum of 27' and a maximum of 36'.
6. Slopes are to be 4 to 1.
7. Culverts of adequate size must be installed where necessary; with prior approval from the Foreman and/or Division Councillor.
8. No dirt is to be taken from the ditch or right of way without prior approval from the municipality.
9. Approaches are to be placed in a safe location for visibility.
