

NOTICE TO RESIDENTS OF THE RM OF ROSEMOUNT:

The RM of Rosemount is in the final stages of the Civic Addressing Project for Saskatchewan (CARS). In the month of June you will see Township, Range and Named Road signs being installed throughout the municipality. In addition, every occupied yard site will be receiving a blue sign with the official civic address for that location. These signs will be installed on a shorter metal post at the entrance to the yard or driveway.

Civic addressing is a standardized system of identifying and locating properties. This system will assist emergency responders, such as police, fire and ambulance, in finding your home or business quickly. It is also an easy method for other parties, such as services and delivery companies, to locate a property.

Please feel free to contact the municipal office if you have any questions regarding this project.
